

THE GREEN STATEMENT

The ComfortDelGro Group of Companies aims to minimise the impact of its activities on the environment by ensuring continuous improvement in environmental performance whilst bearing in mind prevailing technical and operational constraints. The Group is also committed to complying with all statutory and regulatory requirements.

Our overall goal in environmental management is to minimise the harmful effects of our operations across Singapore, the United Kingdom, Ireland, China, Australia, Vietnam and Malaysia on the environment. By striving to reduce the environmental footprint of each passenger journey, ComfortDelGro can contribute to reductions in air pollution from road transport and carbon dioxide emissions. A complete elimination of harmful emissions is however not possible and we will explore how best we can offset any negative impact we have on the environment.

We endeavour to continue to improve the management of our environmental impacts by reducing resource usage and minimising waste. We will continue to make on-going investments in new vehicles so as to reduce our emissions profile and we will continue to support research into alternative fuels.
